## About ROBOTICON

ROBOTICON Tampa Bay is organized by the Foundation for Community Driven Innovation (FCDI), a nonprofit organization dedicated to supporting academic achievement, economic development and the spirit of innovation through inspiring programs and active learning projects.

The mission of ROBOTICON is to increase public awareness of and engagement in the power of hands on, mentor driven youth engineering and robotics programs like *FIRST*, and to provide participating youth with a low stress, high-quality competitive event with opportunities for skill building, networking, and college and career readiness experiences.

## Sponsorship Opportunities

ROBOTICON is free and open to the public – and this year free to watch via livestream, with content from around the Florida, the US and abroad – and very modest registration fees for teams this year. ROBOTICON is 90% volunteer produced. Expenses this year include:

- Digital tools for cross platform streaming and participant engagement
- Production Company fees
- Stipends for Field Technical Assistants and other key volunteers
- Stipends for guest speakers
- Trophies for teams

Corporate and individual sponsorships and donations help defray event production costs and keep registration costs down for teams. Sponsorship opportunities begin at \$500 and include in-kind and other special support opportunities.

# ROBOTICON

## TAMPA BAY
